

ROADRIDER MKII

Avon's evolution of the Roadrider tire is the RoadRider MK II. The goal was to retain the look and characteristics riders around the world enjoy while giving the range an updated feel with new compounds for enhanced mileage. The grip level riders love is also in this evolution. 12892

Main changes: new sidewall which features ROADRIDER MKII along with the Union Jack on the sidewalls.

Size additions include H and V options in many sizes and certain sizes have now been made universal.

Features: large contact patch for excellent grip at all lean angles. Comprehensive range of sizes for both modern and traditional machines. Performance upgrade for classic and vintage motorcycles.

Timeless appearance

Cutting-edge performance with aesthetics that suit bikes of all ages.

New tire construction

Enhanced handling and stability in both wet and dry conditions.

Advanced compound technology

Improved grip and braking performance in wet conditions*

*Internal tests indicate a 5% improvement in stopping distance compared to the Roadrider (from 70kph to 0kph)

Enhanced sidewall design

Reduction in the effects of ozone degradation
