

## SPORTMAX Q5S

14503

- Enhanced constructions, profiles, compounds and tread patterns
- allows the Q5S to provide lighter and nimbler handling and improved
- dry and wet grip to make it even more user-friendly all while
- maintaining class-leading durability.
- Multi-Tread™ technology utilizes a long-wearing compound in the
- center of the rear tread flanked by lateral-grip compounds, giving
- riders outstanding mileage without sacrificing handling or grip.
- Updated front and rear compounds offer improved grip and
- warm-up times.
- Intuitive Response Profile™ (IRP) technology allows greater latitude
- in line choice while cornering, plus amazingly linear steering.
- Optimized tread pattern design aids in quicker warm-up times and
- improved wear characteristics.
